Interfaith Harmony & Peace

Pakistan is a Land of Great Diversity, for thousands of years; communities with different cultural, ethnic and religious backgrounds have been living on this land with peace and understanding.

However, events in the past four decades have badly affected this climate of tolerance and coexistence among its inhabitants. Wars in the region, persecution of groups in the name of faith, lack of political will and good governance; and arbitrary enforcement of laws have contributed towards escalation of biases and ultimately violence against vulnerable segments of the society, particularly against religious minorities.

Keeping in view of the growing intolerance and extremism in the country, Tahzeeb is committed to promote interfaith harmony, peace and social coexistence through various activities such as community based awareness raising programs, fostering peace through FM-Radio channels, delivering lectures on peace, harmony and promoting tolerance across different educational institutions belong to both public and private sectors.

Environment & Climate Change

Human activity has caused at least half of climate change in the last half-century, hundreds of scientists say.

In Pakistan, earthquake of 2005, frequent cyclones hitting the coastal belts of Baluchistan and Sindh; heavy floods in 2010 and severe monsoon rains of 2011 are giving Pakistan a wake-up call to our activities today not only for us, but for many generations to come.

Tahzeeb is committed to sensitize communities and youth to initiate environmental friendly initiatives to become resilient of environmental affects and to be able to avoid vulnerability to natural disasters.

Program Areas

Primary Health Care

Good coordination of health care and good regulation of aid is important to make sure that health care is provided to everybody at a standard level.

Organizational effectiveness requires learning, communication, initiative and risk-taking.

These elements are often absent in bureaucratic and highly formalized structures existing mainly in the public sector.

Tahzeeb stresses prevention rather than cure.

It relies on home self-help, community participation, and technology that the people find acceptable, appropriate, and affordable.

Besides this, we help the elderly become aware of their own rights so that they could get their due attention at family, community and public sector institutions and are able to play an active role in society.

Youth Empowerment

Pakistan is a young country and the youth of any country is the most valuable asset for a country's sustainable socio-economic, cultural and political development. Pakistan is among those countries, which are currently witnessing a substantial increase in young population.

Tahzeeb through its trained volunteers and partner organizations is encouraging youth to show their participation which would make them realize their significance in the well being of the society. Tahzeeb is looking forward to this theme as the long term program for youth development so that, they will be strong enough in crises management, entrepreneurship development, political participation at local level and analytical in their way of thinking and will be emotionally more balanced citizens of the society.

Tahzeeb Development Foundation

Mission

To bring about a paradigm shift in human development through qualitative and purposeful processes of change.

Core Values

Tahzeeb strongly believes in transparency, accountability, gender equity participation and creativity.

Our belief

We firmly believe that unless local communities are involved proactively in the process of development, sustainable change will not happen. So, believing in this principle of 'Civic Driven Change', We sensitize the local citizenry in order to make them partners in its mission.

Organizational Governance

Credibility and accountability have always been the bench mark for Tahzeeb Development Foundation and are achieved through the promotion of principles of good governance in the processes and practices.

The organizational governance/ Board has an advisory role and providing constructive criticism on the working of the organization, designing strategies and plans to accomplish its mission.

Program Areas

Education & Literacy

Education plays a crucial role in the development strategy of any economy. International statistics display that educated populations are positively correlated with high economic growth rates, enhanced labour productivity, social prosperity and sustainable development.

Tahzeeb Development Foundation believes that education is both i.e. means as well as the end to a better life: the means because it empowers an individual to earn his/her livelihood and the end because it increases one's awareness on a range of issues from healthcare to appropriate social behavior to understanding one's rights – and in the process help him/her evolve as a better citizen.

A team of Tahzeeb in Education & Literacy component is dedicated to transform a good idea into real change. That's why every day is turning to be the most innovative day for them to generate ideas into workable solutions for local populace.

Democratic Governance

Democratic Governance and Accountability are principles whose application is essential to a country achieving genuine democracy and development.

Good Governance brings along respect of human rights, the rule of law, effective people's participation in development, as well as transparent and accountable processes and institutions.

Thus, Tahzeeb Development Foundation is committed to promoting democracy and good governance, as the only sustainable way of addressing development challenges anywhere in the country.
